

## 2005 Pressler Engineering, LLC Project Updates

*Harding Home*

*Pressler Engineering, LLC provided heating and ventilation design for this beautiful new construction home in Woodinville WA. Working with the HVAC subcontractor, Pressler provided new forced air heating design, heat recovery ventilation, and interconnection piping design to the building's domestic hot water system.*

*Designed by: Robert Harrison Architects*

*Constructed by: Phoenix Construction*

*The Vine*

*Pressler Engineering, LLC provided plumbing consultation for The Vine, a unique mix of 5- and 12-story buildings, with condominiums featuring view balconies and roof terrace over street-level retail.*

*Develolped by: Intracorp, Seattle*

*Pressler Engineering, LLC provided consultation to the owner on HVAC issues for Blakely Commons, a four-story condominium project located along the Burke-Gilman Trail and pedestrian-close to University Village the University of Washington campus.*

*Developed by: Intracorp, Seattle*

*Blakeley Commons*
